

The Sphinx by Prince Bush

What creature
Considers the stiffness
Of this condition, and stays

A fixture, pines for a banging
Partition, human with perception,
Headboard at four feet, and 4 A.M. in

A bedroom—who beckons for mistake
In specification, especial the stakes or spikes
Being requisitioned—whose transition to demise

Depends on opinion—who eats wayfarers,
A projectile, its gunpowder, touch hole, cannibal
Catching intercourse, and the cannonball shooting—

Slope and portion, inversion of mountainsides
Springing down in despair, comes from:
To bind, or squeeze—
